Summary

ANALYSIS

Animals and science are the two most popular categories of content, showing that people enjoy "real-life" and "factual" content the most.

INSIGHT

Food is a common theme with the top 5 categories with "Healthy Eating" ranking the highest. This may give an indication to the audience within your user base. You could use this insight to create a campaign and work with healthy eating brands to boost user engagement.

NEXT STEPS

This ad-hoc analysis is insightful, but to turn this analysis into large scale product development, you need a deeper understanding of your business. Here are some ways on how to do this.
